WORKING EXPERIENCE

Telkom Indonesia, Jakarta

Sep 2025 – Jan 2026

Artificial Intelligence Engineer Intern

- Engineered an end-to-end agentic workflow using LLMs to translate Natural Language Queries (NLQ) into SQL, enhancing data accessibility for financial analysis.
- Developed an automated document verification system with multimodal LLMs, reducing manual validation time and improving financial reporting accuracy.
- Architected AI system integration using advanced prompt engineering for model reasoning and a GraphQL API for efficient, low-latency communication.

Secretariat General Indonesian House of Representatives, Jakarta

Jun 2025 – Aug 2025

Artificial Intelligence Engineer Intern

- Developed a prototype intelligent chatbot using the Retrieval-Augmented Generation (RAG) approach, integrating LangChain, Ollama LLM, and Qdrant vector database.
- Designed and implemented a document processing pipeline with HuggingFace Transformers for embedding, reranking, and context optimization.
- Built an interactive Streamlit interface for internal testing and optimized model performance through prompt evaluation, fine-tuning, and query refinement.

ID/X Partners x Rakamin Academy, Remote

Jun 2024 – Jul 2024

Data Scientist Intern

- Performed end-to-end credit risk analysis, including data cleaning, transformation, encoding, and extensive EDA to extract actionable insights from loan datasets.
- Developed and optimized machine learning classification models in Python, delivering reports and presentations with model recommendations to stakeholders.

EDUCATION

Telkom University, Bandung

Sep 2022 – Present

Bachelor of Computer Science, Information Systems

GPA 3.95 of 4.00

ACHIEVEMENTS

Samsung Innovation Campus Batch 5, Bandung

Sep 2024

Placed in Top 10 Teams.

National Data Analytics Competition, Bandung

Jan 2025

Third Place Winner.

EDM Challenge Data Science Competition, Bandung

Sep 2024

First Place Winner.

LEADERSHIP ACTIVITIES

Enterprise Data Management Laboratory, Bandung

Apr 2024 – Des 2025

R&D Laboratory Assistant Coordinator

- Led the “Grow With EDM” (GWE) training program, mentoring 80+ study group members on data science fundamentals and practical applications.
- Initiated and coordinated final project competitions and guided members in preparing for national and

international data science competitions.

- Supported research activities leading to national and international publications, fostering technical leadership and talent development in data science

School of Industrial Engineering Competitions Academy, Bandung

Apr 2025 – Jul 2025

Competition Development Staff

- Organized mentorship programs, skill development workshops, and intensive bootcamps to prepare students for national and university-level competitions.

SISJAR Laboratory, Bandung

Aug 2024 – Jan 2025

Teaching Assistant for Computer Network Practicum

- Guided students through LAN cable crimping, basic configuration, IP subnetting, VLAN setup, and inter-VLAN routing using Cisco Packet Tracer.
- Taught advanced networking concepts, including spanning tree protocol, DHCP, static routing, etc.

SYSTEM ARCHITECTURE & GOVERNANCE Laboratory, Bandung

Aug 2024 – Jan 2025

Teaching Assistant for Business Process Modeling Practicum

- Guided students in creating BPMN diagrams using Visual Paradigm software.
- Developed learning modules and facilitated hands-on sessions to enhance business process modeling understanding.

DASPRO Laboratory, Bandung

Feb 2024 – Jun 2024

Teaching Assistant for Programming Algorithms Practicum

- Facilitated Python-based algorithm practicum sessions, guiding students in applying core programming concept.
- Created detailed practicum modules and delivered instructional presentations to improve learning outcomes.

Literaku Indonesia, Remote

Oct 2023 – Dec 2023

Program Officer

- Facilitated weekly meetings for 300+ participants, ensuring smooth event flow & active audience engagement.

VOLUNTEER EXPERIENCE

International Conference on Advancement in Data Science, E-learning and Information System, Bandung

Publication and Administration Division

- Managed paper submission process with 100+ authors to ensure timely and accurate documentation.

CERTIFICATIONS

Google

Dec 2022

Google Data Analytics

IBM

July 2024

IBM Data Science

DQLab

Jun 2023

Bootcamp Data Analyst with Excel, Python, & SQL

LANGUAGES & SKILLS

- Languages: Bahasa Indonesia (Native), English (Professional Working Proficiency).
- Technical: Python, SQL, NoSQL, Scikit-learn, TensorFlow, PyTorch, NLP, LLM, RAG, Computer Vision, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Microsoft Excel, LangChain, LangGraph, HuggingFace, Streamlit, Qdrant, Ollama, OpenAI, OpenCV, CNN, YOLO, Git/GitHub, Docker, Pentaho, REST API, GraphQL, FastAPI, Flask.
